ENMU VPN Client Configuration

You will notice there is now a small lock icon in the system tray. This icon is used to connect and disconnect from the ENMU network using the VPN software.

Begin by double-clicking the 🚨 lock icon.

A window will appear asking if you would like to create a new site. Click 'Yes'.	Check Point Mobile × No site is configured. Would you like to configure a new site?	
	Yes No	

The site wizard will appear. Click 'Next'.	😚 Site Wizard X
	Welcome to the Site Wizard
	The wizard will guide you through the configuration of a new site for the VPN client.
	Back Next Cancel Help
The first step of the wizard asks for a server address	🔂 Site Wizard X
or name. The ENMU VPN server is securevpn.enmu.edu. The	A site is your gateway to network resources.
display name field is optional and affects how	To continue, fill in the required information and click next.
the server name is displayed in the client. You	Server address or Name: securevpn.enmu.edu
can leave this box unchecked.	Display name: securevpn.enmu.edu
After entering the server name, click 'Next'.

ENMU VPN Client Usage with Remote Desktop

Before connecting using Remote Desktop, you will need to know the IP address of your computer on the ENMU campus. Please call the ENMU Helpdesk if you need assistance finding the IP address.

Begin by connecting the VPN client by double-clicking the lock icon 📴.

Open Remote Desktop. Depending on the operating system (Windows 7, 8, 10, etc.), there are several ways to launch Remote Desktop.

General way to open Remote Desktop is to go to the programs area or to search for 'Remote Desktop' in the Windows search box.

Enter the IP address of your ENMU computer on campus in the 'Computer' field and click 'Connect'. This is the unique address for every computer on campus.	Remote Desktop Connection — × Remote Desktop Connection None Specified Computer: 172.19.3.123 × User name: None specified You will be asked for credentials when you connect. Connect Image: Show Options Connect
The 'Enter your credentials' screen will prompt for username and password. This screen will vary depending on the version of Windows being used. You may be required to type in 'ad\' before your username unless this is already specified. Click 'More Choices' to change the username.	Windows Security × Enter your credentials These credentials will be used to connect to 172.19.3.123. Diaz, Yuren Image: AD\DIAZYU Remember me More choices OK Cancel
When you are done working, open the start menu on the remote session and select 'Log Off' or 'Disconnect'. Once you have logged off or disconnected, you can disconnect the VPN client by double-clicking the key icon in the System tray and selecting disconnect from the secure client window. Please contact the ENMU Helpdesk at 575.562.HELP (4357) or help.desk@enmu.edu if you have any questions or need assistance using the VPN client.
